AGBA Profile

Academy for Global Business Advancement (AGBA) --- (a not-for-profit charitable NGO, incorporated and registered in the State of Texas, USA) --- is a worldwide network of professionals committed to facilitate dissemination of scholarly research findings in the fields of business and entrepreneurship development. The main mission of AGBA is to provide an ongoing open global forum to discuss and analyze business and entrepreneurship development from different perspectives and viewpoints in order to improve understanding of underlying forces that (1) impact global developments and (2) shape the destiny of emerging countries such as India, China, Thailand, Kenya, Indonesia, Malaysia, United Arab Emirates, and Bahrain, etc. in the contemporary globalized economy. AGBA bridges geographic, cultural, disciplinary, and professional gaps by integrating different business disciplines while actively enhancing practitioner-academician interactions on a regional and global basis. AGBA is sponsored by numerous universities, organizations, and agencies across US, EU, Eastern Europe, Asia, and Africa.

Mentoring Doctoral Students

AGBA's 2019 Doctoral Consortium will focus on mentoring doctoral students hailing from emerging countries. The faculty panel of the 2019 Doctoral Student Consortium will consist of accomplished and globally acclaimed scholars who have a distinguished scholarly publication record, have served as editors of leading global journals, and/or have experience in supervising doctoral students across western countries such as US, UK, EU, Canada, and Australia.

AGBA's 2019 Doctoral Consortium is a workshop for Ph.D. students from all over the world to further develop their research ideas, to learn about the challenges of conducting business research, building a successful academic career in their fields, and to broaden their professional networks on the global stage.

Consistent with the developmental mission of AGBA, the consortium is open for Ph.D. students from all over the world, who would be attending its global conference in India. One-to-one mentoring would be provided on the third day of the conference on July 4, 2019.

Ideally, doctoral students should have a strong research idea or be close to completing a doctoral dissertation proposal, and be far enough away from finishing their dissertation so that they could make good use of feedback received from their doctoral mentors during the consortium.

Kindly contact AGBA's President and CEO to schedule your mentoring session:

Why India???

Our Host:

Housed within the Department of Management Studies at the Indian Institute of Technology Delhi, The Global Institute Of Flexible Systems Management (GIFT) is registered under the Indian Societies Registration Act – XXI of 1860, wide Registration No. S35291 of 1999 with the vision of “Evolving as a global forum for interaction of all interested professionals and organizations in a truly flexible mode so as to help them create more options, faster change mechanisms and greater freedom of choice in their own settings.”

Our Venue: (Indian Institute of Technology Delhi)

Established in 1961 under the Institutes of Technology Act of the same year, the Indian Institute of Technology Delhi (IITD) is a public research university. Under its founding legislation, it was declared to be an Institute of National Importance. There are nine subject areas in which IITD offers a Bachelor of Technology. These are Biochemical Engineering and Biotechnology, Chemical Engineering, Civil Engineering, Computer Science and Engineering, Electrical Engineering, Engineering Physics, Mathematics and Computing, Mechanical Engineering, Production and Industrial Engineering, and Textile Technology.

The university also offers five dual programs that combine undergraduate and graduate degrees including MBA and Ph.D. programs in Business Administration.

Located in South Delhi’s affluent Hauz Khas neighborhood, the IITD campus spans 325 acres and is built to resemble a city of its own, complete with gardens, roads and residential complexes. The campus is divided into four zones, with male and female accommodation in the Student Residential Zone, a Faculty and Staff Residential Zone, the Academic Zone and the Student Recreational Area, comprising a football stadium, cricket ground, basketball courts, a hockey field, swimming pool and tennis courts.

Our Host City (Delhi):

Central National Capital Region (CNCR) with an estimated 2018 population of over 27 million people, makes it the world's second-largest urban area according to United Nations. Delhi is the second-wealthiest city after Mumbai in India, with a total wealth of over \$500 billion and home to 20 billionaires and 25,000 millionaires. Delhi has been continuously inhabited since the 6th century BC. Through most of its history, Delhi has served as a capital of various kingdoms, dynasties and empires including Mughal empire. It has been captured, ransacked and rebuilt several times, particularly during the medieval period.

Our Host Country --- India and its Amazing Tourist Attractions--- Amazing India:

India's golden triangle is a tourist circuit which connects the national capital Delhi, Agra and Jaipur. The Golden Triangle is so called because of the triangular shape formed by the locations of New Delhi, Agra and Rajasthan on a map. The trips usually start in Delhi moving south to the site of Taj Mahal at Agra, then west, to the desert landscapes of Rajasthan. It is normally possible to do the trip by coach or private journey through most tour operators. The Golden Triangle is now a well traveled route providing a good spectrum of the country's different landscapes. The circuit is about 720 kms by road. Each leg is about 4 to 6 hours of drive. The Shatabdi express train also connects Delhi with Agra and Jaipur and many airlines also serve these three cities.
